Oh My What an Amazing Day!!! The large pig that was rescued on the side of the road back in August had her feet trimmed last week, her weight is improving, her hair is coming back and today she has finally found a friend...Wilma and Pavorotti have made my day. They are both in one pig house, all comfy with tons of blankets, laying side by side sleeping peacefully. This truly makes my heart happy...This is why we do what we do and this is why it is so rewarding to me personally when an animal that was so close to death is given a chance at life...we are so grateful to everyone that helped us help these pigsToday was a great day for Wilma and BBR. The smaller pig had 9 babies and we have found loving homes for 8 of them. Little Betty will be spayed as soon as her milk dries up and all the piglets will be spayed and neutered before they are allowed to go to their new homes.. .I am so happy for Wilma...a good day at THE FARM.

Animal Update #2

Moses

5 Dec 18 - Moses is a real fighter. He came to us in critical condition with a severe chance of infection, not only the open wounds; but, the dozens of punctures...He has survived to date with several more weeks of healing to completely close all wounds.. He is loved and his prognosis is good.

4 Nov 18 - Today Little Moses is standing and eating well...both his hip and his ear have had the needed surgery and he is better today. We must watch closely for infection.

31 Oct 18 - BBR received a severely injured goat that had been attacked by dogs. He has many lacerations on his body. We've taken the goat in and are waiting for the vet to arrive. We hope to save him but he is very badly injured. We will give him every chance to survive. We will update everyone once the vet has seen him. Poor little guy. Considering the pain he must be in, he is being very sweet.

CAN YOU HELP ?

Winter is coming quickly to the valley and with the nights getting colder for the cats on property we could use help from the community. Bring large grey, green or brown plastic storage containers ...sizable enough for a couple cats to curl up inside....about 18 by 24 inches or larger...we also need new heating pads as ours have gone through too many winters. Try to find pads that do not have auto turn off so they do not shut off after a couple hours..we cut a 5 inch hole high up on one end of the container, put the heating pad inside with a small blanket and close the lid so the kitties can crawl in to get warm and stay dry. If the container is large enough we glue some insulation on all of the inside of the container to keep the heat in better..please bring the containers and pads by THE FARM ..we need about 12 of these set ups... Each tub is about \$10 and a pad is about \$15.. If you just want to sent cash for us to get what we need please do...thank you to anyone that can help keep the cats warm this season.

YEAR END GIVING

Please consider THE FARM for your end of the year donation to help the animals...The feed, veterinary and other costs are high..The animals can use all the help they can get. This endeavor is not and has never been about us, it has always been about the animals..Give if you are able, volunteer if you are able or help in any manner you are able.. Every Dollar goes to the animals... Thank you!!!

Animal Angel Tree

We've created an Animal Angel Tree with envelopes for various animals ongoing needs. You can choose a specific animal or take any envelope. There are so many needs here and anything will help us keep running.

Choose an envelope and fill all or some of the items on the envelope. Thank You!
